SUCCESSFUL FAIR ASSURED

Raindrop Won the Three-Quarter Dash, While Lady Boach Surprised Them All by Tak-

ing the Tratting Parse. BALRM, Sept. S -The first day of the state fair spened with the usual confusion and light at tendance Within the pavilion everything is still in a chaotic state. The exhibits are only about tendance. Within the partition everything is still in a chaotic state. The exhibits are only about half in place, while in several spaces no showing at all has yet been made. The sound of the saw and hammer were heard all day, and towards evening order began to grow out of chaor. The display of grains and agricultural products promises to be the largest and best over exhibited in this state. George Echahaw of Pugene City alone has over 200 varieties of wheat of enormous growth and excellent quality. Besides 6this the display of other grains, grasses and vegetable excels the general exhibits are not country lairs. The forced exhibs, compr sing a large collection of the general exhibits are not country lairs. The forced exhibs, compr sing a large collection of the general exhibits are not country lairs. The forced exhibit, compr sing a large collection of the general exhibits are not as the seen made. Reveral laddes were heat busy the exhibits in the art and fancy work departments, and the indications are the the disabley when completed will be a creditable one. The display of agricultural inp ements and machinery is small, and not what it should be However, several exhibitors have not yet brought their machinery to the ground and when everything is in this department may make a better appearance.

posterior presentation of the sundare presentation of the

Service Observer B S Pague Cy Gunst and—
Perkins.

The train was delayed first at Gervals and again at Brooks, and when it arrived at the fair grounds it was nearly an hour late. The delays were occasioned by waiting for north bound reight trains, of which there seemed to be an "unlimited" inmber. The beasengers however, accepted the situation good-natured in an quite a number, who were tired from sitting in the car, amused thumselves waiking back and forth on the depot platform. The forenoon was delight fully cool and the passengers greatly enjoyed the varied landscape passing in panoramic succession on either side of the traik. The bright yellow subble fields, large struches of plowud ground, and the dark green plus trees in the distance, given a deep sorobre hue by the haze which hung over the carth, combined to make a picture at once striking and pleasing both through the blending of colors and contest.

F A included of the state Frincer Band office at the bulles, and State Frincer Inster were also melled among the passengers.

Annual Session of the Severeign Grand I odge at Columbus

Corumbes, O. Sept 16—The Severeign Grand Lodge of Guld Fellows convened here in annual session to-day Representatives were present from every state and territory, Canada and the Hritish provinces. The delegates were welcomed by Governor Forners. The delegates were sponded says "The Tollow of the Committee were appointed says." The standing committees were appointed says. "The Tollow of the Committee were appointed says." The series have been used to the consent of mombership during the past year was greater than the annual increase has been used in the past fitteen years.

The following figures show the strength of the order. Aumber of odd fellows on the glabe lan usry 1 1289—Independent order, \$25,727 Manchester usity 688 92 total 1341,779.

The grand sire made a number of recommendations among them being one that the constitution be changed so as to admit to the order, with the consent of grandlams of young men 18 years old, and that the cavereign grand lodge relievable recognition of this movement in the order, with the statement that the patriarch-milliant are boulk authorized branch of Old Fellowship. The propose of the statement of the relievable in the religious threshold and deliver or more for building a temple for a permanent bome for the highest body of the order. The plan comtem plates a general parade and demonstration of the patriarch-milliant annually, and that it be usade the means of ralating funds for the above purpose, the enterprise to be held in abeyance until sufficient money has been relied.

The reports from the thirty six jurisdictions of the United States show that the aggregate total expenses of the subordinate bodies for separate branches and charities for the year 1889 report \$7, 589,569 invested frude in the lodge, \$22,406 639, encampend, \$1,461,612.

in Brooklyn and burned it in the Juraneco to conceal the over issue of stock. Witness, however, kents a record of soil these transactions in a smell how the knew about this and some times under entries in it himself. This book was taken to bewark, N J and kept until March inst. The book was produced in court and identified, and his record of the fraudulent stock issue was read. After the recess witness staked that 250 shares were subsequently handed him by Ives for the purpose of caucilling the old stock, which he did. Twenty of these certificates were limited by the soft the purpose of caucilling the old stock, which he had to the the state of the first that of these certificates were isotified by thought in the world suffice to counterhalance the oversame witness and that he so to had had been a summarised stock and who it out altogether. Wooden't told how he and he so me metic copied off, with the sted a new set of certificates purposed by the sted of the state of the state of the standing certificates.

INDIAN TROUBLES FEARED.

Rot Bester, N. 1., Sept. 16—A special from York State.

Rot Bester, N. 1., Sept. 16—A special from Yor: 1g says. The Pite pass ager on the Trega R ver branch rin into the Fall Brook freight train at Troga Junction this evening. About twenty pass agers are reported to have been injut. d, some of them fatally. All of the passelger conches were hursed. The train was coming down a heavy grade, and, owing to the slippery track and the refi sal of the air bridgs to work, the engineer was unable to slop it e, train at the station, and it rushed lot, chasing into one of the Fell Brook engines and completely depuolishing the smoker and three passelager coaches.

Rugineer Dargwin a newsboy and Harry Oliver of Union. N. Y were killed. The wounded number fifteen or twenty, some of them sustaining very serious bridges, cause and see also others had limbs fractured. It is feared that two or three will die. Among the injured is Mirs G. Wright of Spokuse Falls, W. T., Pho sustained a fracture of the kits.

Railroad Officials Indicted. The People of a California Town Arming The Feeple of a California Town Arming for Befense.

Ngenles Cal, Sept. 18 — Intelligence has just reached here of anticipated trouble with the Indians at Harkberry Fundament citizens of Hagk berry have to the produce to kingman for arms and annumities the intelligence of the trouble is not definitely kines though it has been learned for some time. The Healiph Indians were dissatisfied Tail robe has been holding a big pow-wow and warr for some weeks and though it was alleged the dance was for rain, old settlers have predicted in the dance was for rain, old settlers have predicted in the dance were notified if they did not units with the tribe they would be killed Members of the tribe who have worked for Mr Crozier, a prominent stockman of that locality, left this plane yesterday, refusing to work longer for him.

Lieutenant Herecy, of Ford Mojave, is at Hack berry, and ways he does not feel like meeting the Indians Hessyst trouble is inevitable The citizens of Hackberry are fortifying and sending their families away.

Was Paid in Cash in the Pollowing Manner

to the earlier history of Denver, Colorado, when its chief business houses were in tents or log houses, and when the population of the town proper could have found shelter in a 14x20 house, town lot speculation commenced. Immigrant wagors were arriving daily, all destined for PIKE'S PEAK. Among the immigrants was a thrifty trader who had leaded his wagon with the necessaries of life. On his arrival, every body wanted to buy flour, but there was no money to buy with So eager was one party to get a sack of flour that he offered three lots in Denver that Fac cost him one hundred dollars for ONE SACK OF FLOUR. The trade was consummated. The lots changed hands four times in eight years, when the United States Government bought these three lots, spot cash, paying forty thousand dollars therefor, its first building in Dem'er occupying these lots. There are lots in the State of Oregon now offered at \$65 to \$125 that will bring one-third of forty thousand dellars in the next ten years. Take the history of all towns in all the states from New England west to Minnesota, and un'il the maximum in population is reached, prices steadily advance. Commence in Illinois. The cities of Decatur, Jacksonville, Galesburg, Bloomington, Rockford and Macomb range in size from eight to twenty thousand population. In Iowa there are the Mississippi River towns of Keokuk, Barlington, Davenport, Dubuque and Des Moines in the center; then Iowa City, Cedar Rapids, Ottumwa and Council Bluffs, all over ten thousand, some thirty five thousand. Wisconsin has its Racine, Madison, Beloit, Appleton, Winkesha, outside of Milwaukee, and here are large cities. Minnesota has a dozen cities running from eight to thirty il onsand people. If your are familiar with these cities you know they have grown on less resource, if an some Oregon towns possess. To day the town of

LA CRANDE, OREGON® With Its Possible Five Thousand People

And less than seven years old, has more alund not resources than any one of the cit es above named. These resources are in acre upon were of the ricelist, neverfu ing agricultural lands theo in gold, silver and had mines, in in trible quarries, m iron prospects and in mountains of traber. A dezen sawmids are pouring their roducts or earnings through or into La Grande

The million dollars will not more than cover the moner value of this year's jucts of Grand Ronde Valley, three fourths of vinch finite lodgment in La rinde See what a town it is It has 60 Lusiness houses, the total business of 10 las toots up to \$62,925 94 for 1888, and increasing quarterly, its creamory e ricity of 2000 pounds daily in butter and cheese, its National Bank has 600 c total, with an average deposit balance of over \$100,000 and a new bank n in LA Grando is the largest shipping point on the 400 miles of the O R & N, the roll equaling \$30,000 to \$40,000 per quarter. This will soon double, for Oh & Y commences right away to build it. Wallows br nich from La Grande This Lone will throw the trade of five hun fred man there this winter

The O R & N announces that all of its town lots will be advanced in price

In short and in truth La Grande is the very best raland fown in Oregon to-day and it stands a fair show of being the second city in Oregon. A syndicate of gentlemen, part of them residents of Portland, having full faith in La Grande, have bought heavily of its real estate. They are seeking to advertise La Grande, that the world may know its advantages. It has increased its population 50 per cent in the past fifteen months. It will more than double in the next year. This syndicate have platted 150 lots in what they have named as Wisdom's Addition. These lots are less than a haf mile from the depot and the new and second largest elevator in Oregon The public school and the University build ngs are within two blocks of these los The finest residences in La Grande are next adjacent to this tract, These lits are put on the market that buyers may be induced to talk for La Grande The man who mas and holds will thank the owners for inducing him to buy In from one to three years these lots must run up into the thousands in value, or even more. If La Grande should grov to 25,000 and thus is not improbable

with her great resources, these lots will bring from \$4000 to \$9000. One thing you can swear by, and that is, if hard work in making known our resources will buil a ci y, we will have one. Not a lot will be deeded before October 5 next. On that day the first to come will be the first served. Our prices will range from \$00 to \$125, 5 per cent off for cash, or full price on half cash half note. Parties living at a distance can remit their money or draft before October 5, and the first money received will take the choice of lots on October 5. You don't know us, and, if you preier, send your money to the First National Bank, La Grande. Deed's or con tracts will be turned over to the bank there. We refer to this bank as to our responsibility. Parties living in Portland can call at Wisdom's Drug Store, corner First and Stark streets, to see the plats, or they can buy lots here. Remember this one thing, viz that some dry ere a great while La Grande property will be much sought after It has every chance and prospect to grow into a ten-thousand populated city in the next two or three years. The balance of our property πz hold for future values, but this plat is among our very choicest locations.

LA GPANDE, OREGON

Trustee and Rea Estate Agent,

P. S.—The price of all lots led unseld on it emplit of Ontober 5 will be marked up and held at an advance of from 10 to 25 per cent, and in ninety days from October 5 we will add 50 per cent to the present list price of the lots in Wisdom's Addition. The lots are worth it and will be sufficiently from the surrounding country. It will not cost a fortune to grade the streets in Wisdom's Addition. One of the chief reasons why the property will jump up in value is that the grant Listand City Mercantile and Milling Company of Island City have arranged to transfer their immense. mant mile, stores, bank and droployes to La Grande in nediately This adds one more National Bank to La Grande and increases the business capita of the town about on third of a million dollars. This gives La Grande at her very door two immense saw mills. A wealthy Michigus syndicate have built a gan mil, with its appurter ces, cic, which involves a quarter of a million more in returns to La Grande and vicinity. He c is the second largest elevator in Oregor, and the O.R. & N. commences its new branch railroad to Wallowa right away. One million dollars can be safely estimated as the business increase of La Grande through the united efforts of its live business people in the past eight months. There is no "cold shoulder" offered new conners, and there is room for hundreds in all lines. In one year's time Wasdom's Addition will be detted with the comfortable dwellings of cu new and old population. Buy a lot, hold it and be happy in the increase it will bring you by helding a few years.

NEWSPAPERARCHIVE®

The citizens of Pertland were taken by surprise at the manufacturing exhibit of the city as shown in The Origoview of vester day Accustomed to the slow but mess meltiode that prevailed prior to the completion of direct railway communication with the East methods that august them a sort of stolal patience while waiting for the coming by way of Cape Horn, the isthmus and inter-in Central Passic and steamiship travel from ban Franc sco of almost every article found necessary to civilized existence they had sectived down to this state of affairs as come-thing quite to be expected. So quiet have been the movements of the manufacturing interests centered there that until now but few knew that we were not stri, wholly le-pendent upon Lastern industry for every thing in use from brooms and woodenware scap and brushes, chairs and tables to car riages furnace stores and parlor furniture Hence the exhibit giving names of firms the kind or menufactoring in which each is engaged the figures showing the annual value of the entired and the sum of money paid to laborers, was a surprise.

An one whether he is a cather of Portland or not can expense the care.

nd or not, can examine this exhibit carefully without feeling that the reputation of "mostinchisto," formed upon the slow methods and cautions investments of a for mer era, no longer belongs to Portland. It is so much easier to find fault than to com mend, so much more congenial to average human nature to censure than to praise, and dea, that with all this hum of industry, with an enormous increase in the volume. and variety of manufactures going on, the same o'd story of Portland's lack of enter-prise has been told. "Over \$12,000 000 navested in Lactories on

output of over \$18,000 000 in value in the past vent, over 5000 skilled mechanics and as many unskilled laborers employed therein, and an annual pay roll of over \$4 000 000 to employes." This is the story of the man ulacturing industry of Portland as now presented, and it furnishes a most conclusive refutation of the old story of tack of enterprise and general stagnation, so often re-

peated.

Our people need no assurance, beyond that furnished by this exhibit, of the present prosperity and future impricial and commercial greatness of this city. The figures tell their own story to all intelligent minds.

MARY FOSSILE.

From the expedition sent out by Princeion college for the purpose of making a collection of fossils in the John Day country in Eastern Oregon the New York World has a re-port that contains points of interest. The party was encamped for a considerable time on the south fork of John Day aver, just at the point where the stream crierges from the mountains. It reports the find of fossils quite large. A great number of the remains of animals, of many sufferent genera, have been collected. Each specimen is kept in its casing or shell of rock, which will be carecasing or shell of rock, which will be carefully removed when the fossils arrive at Princeton. The fursils are mostly fortulations the beds of streams in clayey deposits, where the water has washed the banks awar, exposing portions of skeltons. The clay, once soft, has become indurated through time and pressure, to the hardness of soft. of rock. It is seldon a region so thick in feasils is found. We shall await with some rest the cit-silication and description of necton's discoveries in Orogon.

CANADIAN SEPARATE SCHOOLS.

Canada thought to avoid public discord when she framed her fundamental law by providing separate public schools for the Boman Cathorics, but the result is not that faring to the wirdown of her constitution makers, and opposition to further support of these separate schools is riolent in Man-tohs and Ontario The-report of the Outario government commission of inquiry into the French schools of that province decisres that the text books in use in these schools are for the most part unauthorized, that they contain the teachings of the Roman Catholic church, and are in some instances issimites to the mother country, and for these reasons it is recommended that their use be discontinued.

In Manitobs, Mr. Smart, a member of the does government, at a recent public meeting showed that the returns of the various school districts gave the number of Roman Catholic school children at 4300, the non Catholic at 18,000; the Roman Catholic or separate schools number 50 with 107 teach ers, the public schools 490 schools with 637 eachers, yet the separate schools get orethe end of his parachute came down without fifth of the provincial grant, that is, \$22.210 or at the rate of \$376 each, while the public actions get the remainder, \$97,749, at the rate of \$107 each. Mr. binar further sharges that the Roman Catholics operative the number of their teachers, enting as evidence the case of the convent at Brandon, seatered as a congrate school, which he described as a congrate school, which he decomposed to the school description. al as a separate school, which he deciares on his own knowledge has but thirty scholars, with an average attondance of twenty, yet it is represented that it employs five teachers or one to every four scholars a manifest absurday. Mr. Smart s estimate of relative school taxation of Roman Catho Mes and Protestants in Manitoba is \$4.05 per papel for Roman Catholics and \$12.03 for

This is becoming an interesting and even This is becoming an interesting and even agricus question in many states of the Dominion. The Winning States of the Dominion. The Winning States are It is afther right, or it is not right that the state should provide a cystem of education for II the comp of all classes in the community. the duty of the state lies in this direction, then unquestionably all offizers must be made to contribute to the cost of its maintehance. There are no reasons why the state should build up Roman Catholic schools any more than schools for Jews Baptists or Congregationalists. In principle there is no possible detense for separate schools for Boman Catholics, and there are no except. tahance. There are no reasons why the state tional curcumstances existing in Manitoba th suggest any departure from a wholesome rule. This tact, it closely inquired into, should be recognized by all classes of the sommunity and misconceptions prevented Were compulsory attendance upon the state schools demanded there might be room for complaint on the part of the minority, but so long as these schools are undenomina-tional, and no interference is attempted with the religious faith of my child, all should be expected and should expect to contribute to their support. We see nothing is all this that would justify the cry of re-

A PHENOMENAL STORM

The storm that raged on the Atlantic coast last week, played such mischief with sum mor resorts and so-sad have with shipping was not only unmusal for the season of the year but exceptional m many of its features it seemed to water form It seemed to come from the tropics, having all the suddenness and force that are charac-Secretary of the humans in those parts Its the below Indian summer weather a few miles inland, and the tidal wave which ac companied it wrought destruction to many of the seaside structures and piled many a yeared defenseless upon the beach. Its great-

lattic City where thousands of summer visitors were in the space of a lew hours cut off from shore by the encrotehment of the waves will be as and not recover from the loss and deret to the sourm and the terror that it occasioned for years. This is probably a pesalmietic view of the case, based upon the sadden de olation to the sweet the beach, and the dismay of the visitors who crowded the half ubmerged cars in frantic effort he essent from the service. no Irante effort to escape from the scena Money will repair the lamage to properturight weather and braueng-breezes will lend their charmage a to the place and the attiting heats of the crowded cities in July an I August will do the rest People who now it ink with terror of the piece will reason with themselve that such a storm was phewith themseive that such a storm was phenomenal and is not like y to occur again, and the future of the resort will be much the same that it would have been if the great storm and tighal wive had not wricked it As well almost to expect thits to rot it the redocks because so many vessels we colost in this storm as to taink that these who delight in the sensitore in summer will annoth a familiar and pleasant resort because upon one occasion they were forced to fly from it for their lives for their lives

On the 6th inst, in New York city did Harr, W. Genet, one of the famous thieves of Tweel's Tambus ring. He was a member of the faced legislature? I from 1866 to 1871 when he was deleated by the great in rising agains. Tweed and the ring. He was put on t interact the through the negligence of the sheriff made his escape to tan ada, and thence to harops, where he remuned for several years. Finally, he can eback, at odd tank, and was convected and sentenced to rive sine of \$10,000 and serves. back, stood trult, and was consisted and sentenced to ply a fine of \$10,000 and serve eight months in the pumicinary. He served his time and his irrends part his fine. On his release he opened a bur and hill rd room, ran or distribunt, but was overy whelming or defeated. He was fit years old and was said to have been descended from Edmund of the trement I reach minister to the bint of biates in 1700, who remained in this country became a citizen and married a daughter of George Chuton. Genet was born in Wethersheld. Countained and grow to born in Wethersheld Coun and grew to manhood at Alban. With the exception of Peter B Sweeney a cool, astute vil ain still tiving in Parts on his stolen money all the ring thieves were reduced to poverty and died miserable, Genet, the last of them of equence dying of cancer of the month

The cost of the Cromn trial in (Incago promises to be corn ous. I the or no progress has as yet been 111de toward securing the ends of justice in the case. It is stated that the extra expense of the friends of the murdered man in combloying counsel aggregates \$2.60 weekly to a y nothing of other expenditures. The deferic is unply supplied with funds for its ide of the case. Whence there funds come will probabilit be Whence these funds come will probably be developed in the course of the trial. The defense of the Clair na tasel will be one o the strong points made in behalf of the defendants and, indeed, it looks like the monstrous of me itself will be lot to sight in the cloud of 'ssues" and the multitude of detective stories that have grown out of it

The stock exhibition at the state fair this week promises to be fine. This is especially true of earlie and as an indication that genub stock is being supplement in Oregon by Engineers. Jerveys, Holsteins and other fine breeds the show will be especially at fine broads the show will be especially at tractive. When Oregon farmers fully realize that it costs ho more to feed and is no more trouble to care for a good paying drug cow than for a serge creature that furnishes a contrupply of bulk and little or no butter for the family tible they will have under due good long step toward ruling California butter as a staple out of Oregon markets. Reports from the far inmit that this discovery has been under by some of this discovery has been made, by come of

A man died recently hear I remont, Ind who carried out in his will the ideal view that the men of the world abould protect and support its women. He was unmarried through life, but in order to make up for his remissness in this direction he left his large property to the old maids of Stueben county. The industrial question for women would be speechly estiled it all men verthus disposed to back their sentiment on the subject of the protection and support of subject of the protection and support of women by their money. This man wa-ecoentric" truly but for all that his mone, will no doubt do quite as much good as if he had given it to the Young Men's Christian Association, or to a foreign mismounty sc

P H Redmond accomplished the part chule jump on Sunday with entire succes That is to say, he jamped from his balloon at a hight of 3000 feet more or level and by the end of bar parachute came down without migury. As this was the object proposed and as there seems to be nothing else in .o daring, reclaess or foolbardy a feat we sup-pose it may be recorded as successful (f course no one wants to see a man burt in deed, all who uthressed the performance named but there would areliable sympathy, in the event of a serious resu excess in the time of foothardy exploits

The agricultural class all over the United States say to the manufacturers. If you are bound to have free wood and other man forms we will have free woolens and other goods and you will do well to to forget t Governor Ames of Marsachuse t, rece the said that manufacturers must have free raw materials in all lines. Governor Ames is a showeimaker. Colonel Brigham grand mas-ter of the national grange " 18 in reply to ter of the national grange " is in reply to him. 'If Governor Ames gets free cost and free iron, the former wants free shovels and if Governor Ames is protected the farmer wants to be protected also larmers want and will have more turkey or all will dive

A recent survey gives Nevada a strip of land six miles wide on the Californ a boundary that has heretofore been included in the latter state. Nevada is in a condition to receive favors of this kind thankfully, as there has long been a woeful discrepancy b. prospect of making the former cancel the sater The new survey will add mary square miles of valuable territory to he rad's assessment roll, and California is surposed to be able to stand it, to use a common physics in recording a loss that falls upon a well to-do individual 'without missing it."

Henry N Copp a land lawyer, of Wastington, telegraphs that he has Valentine scrip that, by the recent decimon, can enter tide tands on the Washington territory water front. This scrip, by reason of the decision, has spring into active demand, and much interest is taken regarding its where abouts.

Sandusky Ohio, rejo ces in the largest gas well in the world. Its capacity is 50 000 000 cubic feet daily. The strike was made on the 7th instant, and so intence was the ex citement that 45 000 people visited the locality the next day

The United States owns the "fastest man of the seaside structures and piled many a result defended as upon the beach. Its greatest tray seems to have been expended on a just well out to sea, and it is impossible iven yet to tell the full extent of the damage hat resulted to adopting.

The loses on shore are heavy, but they of-war silent. ' The new steel cruiser Balu

THE MAYOR'S VETO.

company are required to file their acceptance of the same, Repeatfully, J. T. STEWART, Mayor. The vote was unstained.

SIR. H. A. Hoque addressed the city council, stating he is preparing to furnish the additional fit; lights asked for. He said his present dynamo is really overloaded, but very good service has been readered. The instrument has been made as a matter of pride, that the city might have electric lights, although it has cost considerable money, and interfered largely with the null basismes. Mr. Hegge said he had it contempsion, with the ancouragement of the council, to introduce more extended plant.

Bours 2000, one to cest victor and another \$15,000. This tow plant he would run independent of the sawnith. He would organize a plant ou an independent brain. But the proper encouragement hust be given before such an expense will or can be incurred. The new plant, if it would be introduced, will farnish the East Side with excellent lights. But such a pisant will cost a great deal of money and Mr. Hogue asked the council to appoint a committee to discuss with bin these propositions. Hésaid he could furnish the fifty additional lights which minets pays my provided he received the proper encouragement.

The fire and water committee was instructed to confer with Mr. Hogue.

Perturiors.

From F. A. Bangord, A. B. Berevasa and other

The fire and vater committee was instructed to confer with Mr. Hogue.

From F. A. Bancroft, A. B. Breyman and other property holders in the northern portion of the city, asking the council to great the Williamette Bridge Railroad Company a frainchise over certain a stream in McMilene, Rollenday and Irving, as a difficulty with only such a solid art of the stream in McMilene, including the solid framework original framents; relation to the street committee.

From the Northern Facility Terminal Company remonstrating against the opening and extension of D street, McMilene addition, and recting the reasons therefor; referred to the street committee.

From the Northern Facility Terminal Company remonstrating against the opening and extension of D street, McMilene addition, and recting the reasons therefor; referred to the street committee.

From C. C. Grimes, superintendent of the Portland and Vanicouver Railroad Company, asking that C. C. Grimes, superintendent of the Portland and Vanicouver Railroad Company, asking that C. C. Grimes, superintendent of the Portland and Postern and I without pay; referred to the committee or health and police.

From C. P. Hague, saying: "I who to call your Atlention to the fact that I am the holder of the following described city warrants which remain unsaid: No. 31, dated January 7, 1883, drewn in favor of Kerman and Hamilton, indersed June 1, 1883, for the improv ment of L. Street, 1920 (1), No. 10, dated November 2, 1884, drawn in favor of C. L. Spore, indorsed November 2, 1884, drawn in favor of C. L. Spore, indorsed Movember 2, 1884, drawn in favor of C. L. The rapidity with which Lewis county is being settled up is without a parallel in the history of the settlement of this country. And still more gratify ng at the fact ha most of the settlers come from the Fastera states and are good judges of the value of agricultural lands and the uses for which it is suitable. Since January 1, 1880, over 20,000 acres of N. P. Railroad land has leven sold in Pierce and Lewis counties. The area is entimously large, but it remains to be stated that all of this of the land department of the company has been to keep the large speculator out of their agricultural lands and reserve them for actual settlers. The lands are being sold off very cheap. Many of them are appraised less than half of what adjoining desirable than government lands, because first year is so small that it practically enables the settler to make the land par for itself. If the settler has a trade or can occupy his time more profitably elsewhere than on the hand, he is at liberty to go

make the lands there peculiar y adapted for agriculture. Several other railroad companies are reported to be heading for this valuable section in order to compe e for the heavy carrying trade that it will soon have to

SCHOOL OPENING.

school is greater by 94 at the opening this year than last year.

In the high school, there are to ty-five public with fifteen classes. This mokes two rinch work for any teacher. At the beginning of smother term there will be at least five more classes formed. Even with the help the superlutandont gives in teaching an assistant is needed.

The outlook for all departments is most encouraging. The pupils were all glad to return to their studies, and a happier lot of girls and boys than those at the several exholos of this city yesterday morning one will seldom find.

He Thinks Portland is a him Place to Live In, Beats Them All.

The steamer litable arrived at her thock early pesterday morning and tuptain inglested n ports an unusually pleasant trip. Mr W S Ladd, the banker was a passenger on the steamer, and the captair said that he seemed to only the trip minemely, until he rust of the terrible storms on the trip minemely, until he rust of the terrible storms on the trip.

over my very that one cay's rain, and that was to beattle.

The growth of the cound ciries is marrelous that of beattle is a 'mi by astoniahing.

By you think the pecent fro will permaner ity injure Seattle "asset the glooner will permane ity injure Seattle "asset the glooner. In the future it will prove to that contear, In the future it will prove to have been a great benefit to the town, he replied "while the fire, no doubt, bas ail but routed many industionals yet for the city it will prove to have been a blenging.

"The people of S at it approxed me with the idea that the were all afraid something would get away from them unless they hurried up, those of Tacoma the same, out leves or and here in For Jand our people are pacity sure they have quite a dittle time; or pare. Tacoma is a live town, but Seattle beats them all.

HONE FIRE EVERY TWO HOURS He Broams Disgusted and Took a Bunk at the C ty Jail

It has bette predicted more than once that the introducing of cainsh sale the Willamette raver would cause trouble, and these predictions are coming true and the frouble has already begun At. So chock yesterday morning a slight built young asso, with a wearr and depended air, came to fisse the side of a shed Captain Watson who was on duty, for a bank. When saked to give an account of hituself, he said his name was charles Prancis. He had been fathing off one of the whaters for catfish in company with a French barber. As they only caught one fish every two hours he became tired and wanted to go home, and the berber not mad be cause he would not stay and fish all night, and told him not to come around his house any more. Mr. Francis said he came here six months ago from Cailfornia with 41500 and had set the barber up in business that he had been living with him ever since and now he was thrown adult on the cold charlites of the world because he would not siay and lish for casts all night at one cat every two hordrs. "Live me your thife," said the officer. "Thaven t any was the reply Have you and bettle? "On I have nothing but a fish line, and he pulled fifty feet of wet string out of his hip pocket, and was locked up in the sig cell
